

CNMI CORAL REEF

RESTORATION

Who is involved?

Department of Lands & Natural Resources

Division of Fish & Wildlife
Division of Agriculture

Office of Planning & Development

Regional/ Institutional Collaborations

Bureau of Environmental & Coastal Quality

Division of Coastal Resources Management
Division of Environmental Quality

ENVIRONMENT

ocean, reef, organisms,
land, watersheds

COMMUNITY

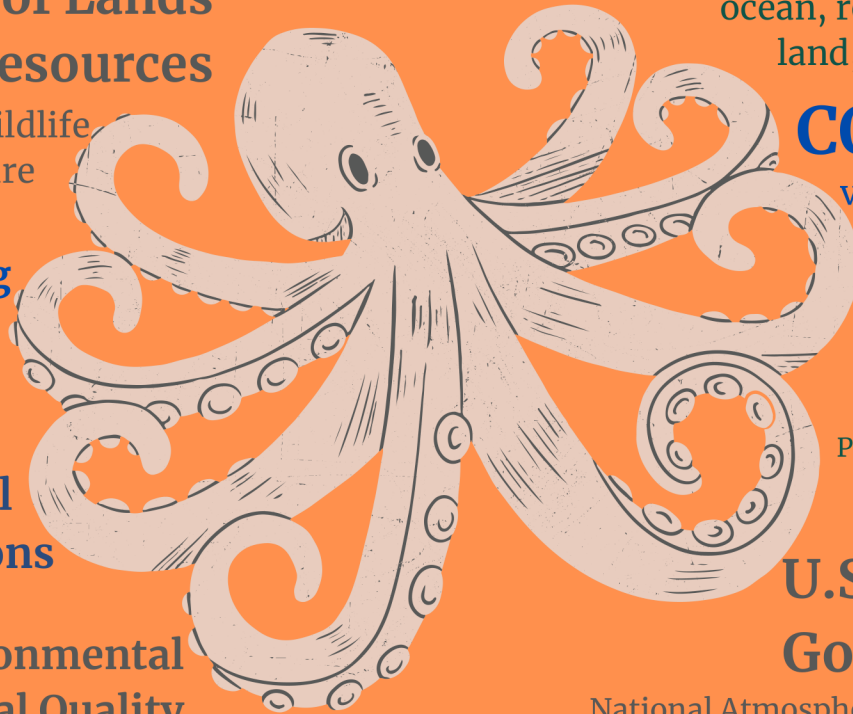

volunteers, students, residents,
concerned citizens

NGOs

Johnston Applied Marine Science
Mariana Island Nature Alliance
Pacific Coastal Research & Planning

U.S. Federal Government

National Atmospheric & Oceanic Administration
U.S. Fish & Wildlife Service
National Park Service
Department of Defense

CNMI CORAL REEF

How?

RESTORATION

Why?

To address community concerns about:

- changing/disappearing beaches (shoreline erosion)
- sea level rise
- climate change
- damage from typhoons
- coral bleaching & disease
- irresponsible development
- pollution
- marine debris
- losing our natural biodiversity

The CNMI has **two** coral nurseries near Managaha to grow our corals big & strong!

Working together is **KEY** to our reef's protection and survival!
